Lexis Sold

As you may already have heard, Lexis/Nexis has been sold by Mead Data Central to Reed Elsevier, a British-Dutch publishing conglomerate.

Lexis Lethargy

A Faculty member has mentioned that Lexis is running very slowly these days. I too have noticed it. The Lexis rep says it could be because of the high volume generated by student training sessions. The situation is being investigated. Please let me know if you think that Lexis is running unacceptably slow.
