Horizons of Knowledge Lecture: "The Transnistria Conflict: Not Frozen"

Transnistria is the last remaining major politico-military conflict in Europe's geographic center. A brief but bloody conflict in 1992 left thousands dead and the region isolated between newly independent Moldova and Ukraine. After twenty years of accepting the conflict's "frozen" status, all sides recognize that conflict resolution is key to enabling Moldova's successful rise from poverty and further institutional integration with Europe, and in turn to developing a stable and secure geopolitical space in the states that lie between the borders of Russia and NATO/EU member states.

Matthew Rojansky, Deputy Director, Russia and Eurasia Program, Carnegie Endowment for International Peace, will describe key issues, the interests of the major international stakeholders

such as Russia, Ukraine, and the E.U., and address prospects for devising an enduring settlement. Mr. Rojansky recently conducted the third round of a Track II negotiation among stakeholders to the conflict. Sponsored by the Department of Political Science, the Russian and East European Institute, the Center for Constitutional Democracy, the School of Public and Environmental Affairs, the Maurer School of Law, and the Ostrom Workshop. For more information, visit the [CCD's website](#). Room 124, noon.
