Indiana Law Annotated

September 17, 2018

This week in the Law School

Today is Constitution Day, and what better way to celebrate than by hearing from Duke Law's Chris Schroeder. Prof. Schroeder has been centrally involved in federal judicial nominations in his capacity as assistant attorney general at the U.S. Department of Justice and as chief counsel for the U.S. Senate Judiciary Committee.

If that Kavanaugh-themed event doesn't whet your SCOTUS appetite, former Kavanaugh clerk Justin Walker is here Tuesday.

Monday, September 17

Constitution Day: Supreme Court Nominations in a Polarized Senate

Prof. Christopher Schroeder, of Duke University, former assistant attorney general at the U.S. Department of Justice and former chief counsel of the U.S. Senate Judiciary Committee, will present today's Constitution Day lecture. Article III provides that federal judges “shall hold their Offices during good behaviour, and shall, at stated times, receive for their services, a compensation, which shall not be diminished during their continuance in office.” The provision establishes judicial independence as one of the foundations of the Constitution’s system of separation of powers. The most important moment when the institution of the independent judiciary intersects with democracy and politics occurs when judges are nominated by the President and then scrutinized by the Senate; none of these moments is more critical than those that involve Supreme Court justices. When democratic politics is as dysfunctional and polarized as is currently the case, what

can the country expect from these moments? And what do those expectations augur for the role of the Supreme Court in our constitutional system? Lunch provided. Moot Court Room, noon.
