New System for Recording Pro Bono Hours

The Access to Justice Program is switching to a program called Tick Spot for recording pro bono hours for graduation recognition. Students who have completed the ethics training (either this year or in previous years) should have received invitations to join Tick. Please accept that invitation to get started tracking hours. We have assigned you to the project consistent with your entering class year (for JDs) or your degree program (for graduate students). If we have made a mistake, please let us know immediately so we can put you in the correct project.

Instructions for recording your hours are posted on our Access to Justice Canvas page. Returning students should feel free to report old hours that they did not report in Canvas. Please follow our date guidelines in the instructions to correctly enter past hours. For recording summer hours, please go back and record your hours between June 1 and August 20, and select "Summer" from the drop-down task menu.

All hours entered in Canvas are still counted and recorded as complete. There is no need for you to transfer them over. If you would like to check your hours reported on Canvas, email us.
